SUMMARY

Teaching children is not just a job; it is my passion!

I realize the importance of providing students with a classroom environment in which they can develop socially, emotionally and academically. My goal is to provide students the highest level of instruction, continuity, and social development. I understand that I will be entering their community and need to ensure that students feel safe, respected, and valued as individuals. As a teacher I am committed to motivate and excite students to learn.

I have served in multiple leadership positions. These positions include Sunnyvale School District level (Curriculum Adoption Team, English Language Acquisition Team, and Student Teacher Mentor), Site level (Technology Coordinator, Leadership Team, School Site Council, Assessment Coordinator, and Grade Level Lead). Sunnyvale Education Association level (SEA Executive Board, Negotiations, Grievance), State Level (California Mathematical Council and CTA State Council) and National level (NEA Resolutions).
